Dear Professor Cochran,

Due to computer problems I am unable to complete the webassign assignment. If it is permissible, may I have an extension on the assignment.

Thank you,

SOME NEW WORDS...

Committee through the Vice President Academic. Decisions of the committee are final.

Academic Integrity

Academic integrity demands responsible use of the work of other scholars. It is compromised by academic dishonesty such as cheating and plagiarism. A student who is uncertain whether or not a course of action might constitute cheating or plagiarism should seek in advance the advice of the instructor involved. The following are considered infractions of academic integrity and may lead to sanction:

■ Academic Integrity

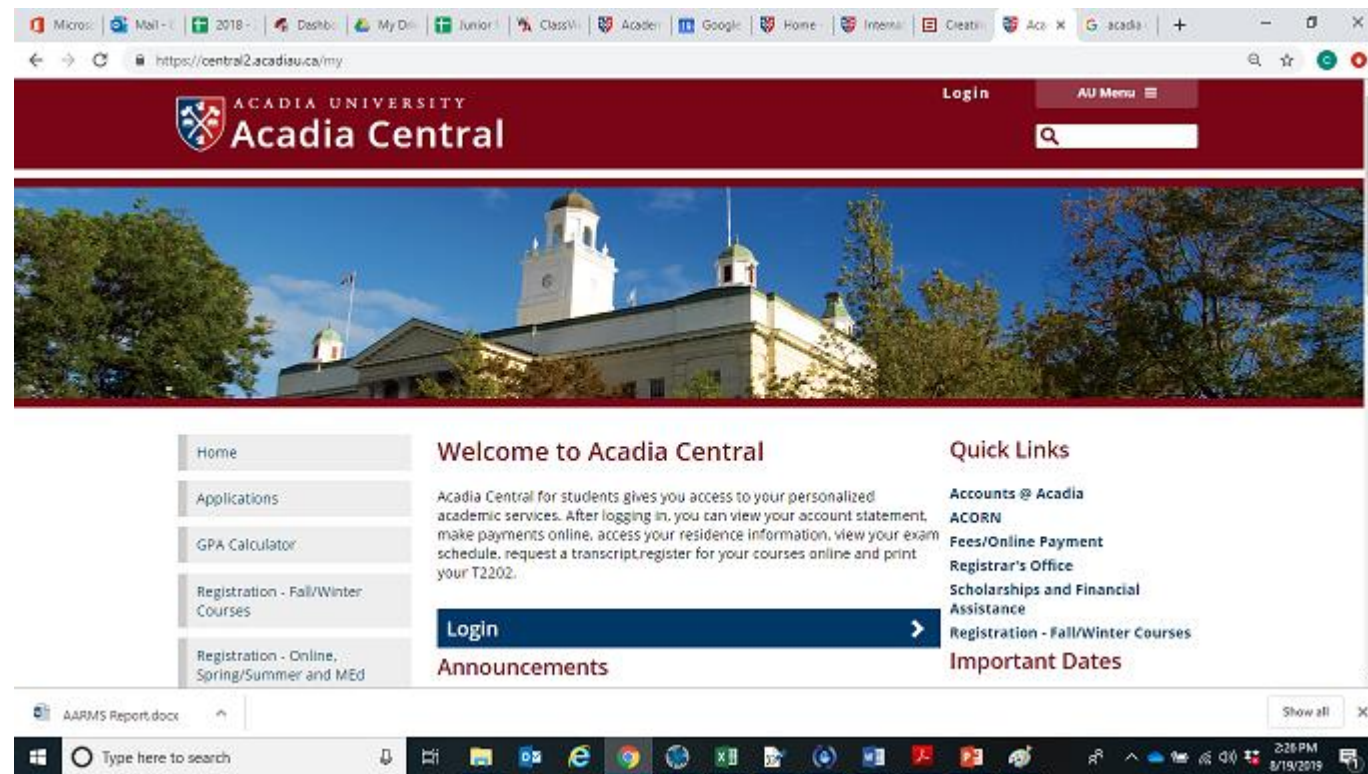

- a. Cheating is copying or the use of unauthorized aids or the intentional falsification or invention of information in any academic exercise.
- b. Plagiarism is the act of presenting the ideas or words of another as one's own. Students are required to acknowledge and document the sources of ideas that they use in their written work.
- c. Self-plagiarism is also a form of plagiarism. It is the presentation of the same work in more than one course without the permission of the instructors involved.
- d. A student who knowingly helps another to commit an act of academic dishonesty is equally guilty.

Penalties are levied in relation to the degree of the relevant infraction. They range from requiring the student to re-do the piece of work, through failure on that piece of work, to failure in the course, and to dismissal from the university.
