

Health & Dental

Acadia Students Union Health Plan

The Extended Health Plan is based on the premise that all full time students at Acadia University require health coverage.

The Acadia Student Union believes that the health plan provides affordable health insurance designed especially for students on fixed incomes. The health plan fee automatically applies to all full time tuition fees. The benefits include prescription drugs, paramedical practitioners, medical equipment and supply rental, accidental dental, ambulatory coverage, vision care, and out-of-province coverage.

Opting Out of the Health Plan

If you are covered under another comparable health plan, you must show proof of the other coverage before the fees associated with the plan can be removed from your account.

To opt out of the Health Plan, please visit the Health Plan Administrator (Room #610, Students' Centre) or opt out online at www.studentbenefits.ca
