

Renewing Your Study Permit

You must not let your Study Permit expire. Make sure you renew this document in order to remain in Canada and continue your studies. To renew your study permit online you will need to set up or use your existing [CIC account](#) . The online questionnaire will direct you to the correct form and the documents required.

If you are having trouble understanding the directions on the CIC website, come to the [Wong International Centre](#) for help.

Immigration help is available throughout the year. We have student volunteers through the academic year who can assist you and answer questions you might have. Hours are posted in September each year on this webpage.

If you require further information or help, please email Elvis Zhou, International Education Program

Officer Intern at fzhou@acadiu.ca
